

Social Responsibility Charter

1. Reducing our environmental impact by measuring, reporting and minimizing the use of energy and resources and be environmentally responsible with our practices
2. Conducting business responsibly in compliance with applicable laws, and supporting fair, open and free competition
3. Engaging with our local and global communities by addressing industry-wide issues and acting attentively in countries of operation
4. Supporting responsible supply chain practices through review of our own supply chain to improve the social and environmental performance of Brooksbank Valves
5. Creating high quality products and services that meet the evolving needs of our customers, support their sustainability challenges and contribute to society
6. Creating a fair, diverse workplace and be an impartial employer, providing professional developmental and learning opportunities in a safe working environment for all members of staff

Jonathan Brooksbank
Managing Director
