

Experienced CNC Programmer, Setter, Operator

We are currently looking to recruit an experienced CNC Programmer, Setter, Operator to join production team.

You must be able to **programme, set and operate** CNC machines to produce accurate components some from castings and exotic alloys, working to drawings and specifications. You will be required to set the machine and carry out tool changes so experience is a necessity. You will self-inspect components and report any manufacturing errors to line manager for corrective action can be agreed. Programming experience ideally with Fanuc, Mazak/Mazatrol or Siemens controls is essential.

We need you to demonstrate a passion for your work and a willingness to be flexible for business requirements including overtime and weekend work. An excellent attention to detail is crucial to the success of the candidate.

Ideally, you will be apprentice trained and have a good understanding of manufacturing protocols including OEE and 5S. You will have a working knowledge of feeds and speeds coupled with personal motivation.

Full-time, Permanent positions available. Initially on a day shift with a view to working a night shift system in the coming months.

In return we offer:

- Competitive salary in line with the experience of the candidate and benchmarked salary levels
- Holiday entitlement of 25 days running January to December, per annum
- Pension contributions above statutory rates

Previous applicants need not apply. No agencies.

The successful candidate MUST as part of the process to: (i) satisfy basic eligibility criteria/certain conditions of employment (e.g. nationality rules/right to work); (ii) provide appropriate documentation to verify ID, nationality, employment and/or academic history, criminal record (unspent convictions only); and undergo Baseline Personnel Security Standard checks.

IF YOU FIT THIS CRITERIA, PLEASE APPLY IN WRITING WITH CV AND COVERING LETTER STATING YOUR SALARY
