

Description

The BUV124 is a double eccentric butterfly valve, with a fully lugged wafer design body. Manufactured as standard in NiAlBr and Teflon seat, to give long service life on seawater applications. Suitable for bi-directional flow with bubble tight shutoff.

In conformance with the Pressure Equipment Directive 2014/68/EU.

Standard Range,
Sizes: 2" to 40"
Connections: ANSI 150 & 300

Features

Double eccentric action
Bi-directional flow
Tight shut-off at full rating
Reduced seat wear
Internal disc stop to prevent over travel

Options

Rubber, PTFE, RTFE or Metal seats
Fire-Safe seat option
Bare shaft
Lever, gear or actuated operation

Materials

Regularly manufactured in a full range of materials including:

Nickel Aluminium Bronze – ASTM B148
Nickel Aluminium Bronze - DS02 747 Part 3
Gunmetal – DS02 830 Part 1
Bronze – ASTM B61/B62
Brass – HTB1
Titanium – ASTM B367
Hastelloy®
Monel®

Other materials available on request

Specifications

ASME B16.5 Flange
Dimensions API 609
MSS SP68
