

Description

The BUV128 is a triple eccentric butterfly valve, with a double flanged body. Manufactured as standard in NiAlBr and a metal seat, to give long service life on seawater applications. Suitable for bi-directional flow with bubble tight shutoff.

In conformance with the Pressure Equipment Directive 2014/68/EU.

Standard Range,
Sizes: 2" to 120"
Connections: ANSI 150 & 300

Materials

Regularly manufactured in a full range of materials including:

Nickel Aluminium Bronze – ASTM B148
Nickel Aluminium Bronze - DS02 747 Part 3
Gunmetal – DS02 830 Part 1
Bronze – ASTM B61/B62
Brass – HTB1
Titanium – ASTM B367
Hastelloy®
Monel®

Other materials available on request

Features

Triple eccentric action
Bi-directional flow
Tight shut-off at full rating
Long seat life
High & low temperature capabilities
Fire-safe design

Options

Laminated metal or solid metal seats
Bare shaft
Lever, gear or actuated operation

Specifications

ASME B16.5 Flange
Dimensions ISO 5752
API 609
