

Vacancy – Junior Design Engineer

We are currently recruiting for **Junior Design Engineer** to join our highly skilled team developing new and existing product ranges and supporting the sales and production teams with design and technical information.

Key responsibilities for the role include:

- Produce design reports and calculations
- Ensure timely and accurate completion of BOM's and drawings
- Communicate with the other team members and other departments with respect to engineering issues
- Knowledge of national and international standards
- Knowledge of material selection
- General problem-solving skills
- Working with engineering team and wider business to ensure all databases, documentation and communication is complete and correct
- Support the engineering change process by updating and checking drawings and managing the overall business change request process.
- Any other duties reasonably requested and deemed to be within your skills and experience

Competencies / Personal Attributes

- Must have a passion for engineering
- Enthusiasm to learn new skills
- Attention to detail and process driven
- Be a good team player and a good communicator
- Have a good knowledge of Microsoft Office
- Knowledge of a CAD system, ideally Solidworks would be desirable
- Flexibility to embrace change and changing working requirements
- Attend appropriate training where required
- Embrace the Company values

Objectives and Measurement

- Accuracy of work measured by NCR system and RFT outputs
- Completion of work on time measured by KPI

Education / Qualifications

- Degree Mechanical Engineering is essential
- Experience in Valve design would be an advantage

In return, we can offer you our **benefits and rewards** scheme, it's our way of saying thank you in recognition of the continued support and commitment you deliver every day.

- Competitive salary
- 36½ hour week with an early finish on Friday

- 25 days annual leave
- Increased pension contribution
- Employee Assistance Programme
- Free onsite parking
- Progression & Career Opportunities
- Death in Service

The successful candidate will need as part of the process to: (i) satisfy basic eligibility criteria/certain conditions of employment (e.g. nationality rules/right to work); (ii) provide appropriate documentation to verify ID, nationality, employment and/or academic history, criminal record (unspent convictions only); and undergo UK Baseline Personnel Security Standard checks. Due to the nature of the work performed and the requirement of the client contracts that we hold, these security checks are required and in order to pass these Personnel Security checks you must hold a current British Passport.

Think you have what we are looking for? Then email your CV and covering letter saying why we should hire you to jobs@brooksbank.co.uk
