

Series: BUV129 Semi-Lugged Concentric Butterfly Valve

Description

The BUV129 is a concentric butterfly valve, with a semi lugged wafer design body. Manufactured as standard in NiAlBr and fully rubber lined, to give long service life on seawater applications. Suitable for bi-directional flow with bubble tight shutoff.

In conformance with the Pressure Equipment Directive 2014/68/EU.

Standard Range,
Sizes: 2" to 40"
Connections: ANSI 150

Materials

Regularly manufactured in a full range of materials including:

Nickel Aluminium Bronze – ASTM B148
Nickel Aluminium Bronze - DS02 747 Part 3
Gunmetal – DS02 830 Part 1
Bronze – ASTM B61/B62
Brass – HTB1
Titanium – ASTM B367
Hastelloy®
Monel®

Other materials available on request

Features

Bi-directional flow
Non Jamming resilient seated
Tight shut-off at full rating
Viton Rubber lined (Export Controlled)
Body liner also provides gasket face
Low pressure drop
Low torque

Options

Lever, gear or actuated operation
Bare shaft
Locking facility
Alternative linings: NBR, EPDM, Silicon, Viton

Specifications

ASME B16.5 Flange
Dimensions ISO 5752
API 609
